DANIEL BELLO

Full Stack Engineer

PROFESSIONAL SUMMARY

Full-Stack Developer with mid-senior level expertise, with over 5+ years of delivering end-to-end web and mobile solutions. Led development of Chowberry's core applications, overseeing architecture, implementation, and release while ensuring performance and scalability. Built a custom caching layer that boosted system efficiency by 25% at Gallery of Code. Ready to apply full-stack skills to create scalable, user-focused products that drive business growth.

EDUCATION

MASTERS OF COMPUTER SCIENCE (IN-VIEW)   **2026 - 2027**
Georgia Institute of Technology-Main Campus   *United States*

BACHELOR OF ENGINEERING (B.ENG.) IN COMPUTER ENGINEERING   **2014 - 2019**
Ekiti State University   *Nigeria*

TECHNICAL SKILLS

Javascript *(Expert)*, Typescript *(Expert)*, C# *(Experienced)*, Python *(Skillful)*, ReactJS *(Expert)*, NodeJS *(Expert)*, FastAPI *(Experienced)*, Flask *(Skillful)*, ASP.NET-CORE *(Experienced)*, Software Design *(Experienced)*, Test Driven Development *(Experienced)*, Github Actions *(Experienced)*, MongoDB *(Expert)*, Postgres *(Experienced)*, Docker *(Experienced)*, Kubernetes *(Skillful)*, Agile Methodologies.

PROFESSIONAL SKILLS

- Problem Solving & Teamwork
- Resilience
- Critical & Research Thinking
- Time Management
- Innovation and creativity
- Strong Interpersonal Skill
- Strong Communication Skill

EMPLOYMENT HISTORY

FULL STACK DEVELOPER   **Jan 2024 - Dec 2025**
Chowberry   *Remote*

- Led the development and design of the system's primary applications, including mobile, web, client-facing applications, and the CMS.
- Owned end-to-end delivery from architecture and implementation through deployment and release.
- Ensured consistency, performance, and scalability across all platforms within the ecosystem.

FULL-STACK DEVELOPER   **Jan 2023 - Apr 2024**
Gallery of Code   *Remote*

- Transitioned backend servers for two projects, ensuring zero data loss
- Contributed to team success in a collaborative environment
- Engineered a custom caching solution, enhancing system efficiency by 25%.

FULL STACK DEVELOPER   **Apr 2021 - Oct 2023**
Defence Space Administration   *NIgeria*

- Engineered secure messaging platform for Defence Space Administration
- Increased document security through local server setup
- Enhanced document security by developing a local NodeJS server with MongoDB.
